FOUR HUNDRED THOUSAND SHOPMEN TO FEEL EFFECT WAGE REDUCTIONS TO BECOME EFFECTIVE JULY FIRST

(By Associated Press) CHICAGO, June 6.—Over a strong protest the three labor representatives on the railroad labor board, the new wage cut of 7 cents an hour for railway shop mechanics and 8 cents for freight curriers, cutting 100,000 shopmen approximately \$60,000,000 a year was ordered today. The saving to the railroads follows on the heels of the \$50,000,000 cut in wages of maintenance of way laborers last week. Both cuts are effective July 1. The minority report of the labor members pointedly stated that the majority decision was made "with no consideration of human needs," and charges it fails to carry out the function of the board to set a "just and reasonable wage."

(By Associated Press) CINCINNATI, June 6.—The new wage reductions for shopmen, ordered by the railroad labor board, can but intensify the present feeling of dissatisfaction with railway labor conditions, and will at least result in an immediate strike vote, returnable June 30, according to B. M. Jewell, head of the Shop Crafts Union here today, for a railroad strike conference.

NEW ADDITION TO HIGH SCHOOL IS DECIDED UPON

Nine Additional Rooms Will Be Provided By Construction of Two New Wings

Plans have been completed by the Tonopah school board whereby two wings will be added to the new school building, embracing nine rooms. Of this number four rooms will be on the northeast side and five rooms on the southeast side.

It has been decided to call a special election to vote upon a bond issue in the sum of \$37,000, 5-year 6 per cent bonds. It will only be necessary to offer for sale \$20,000 worth of these bonds by reason of the fact that the Tonopah school district has a surplus of \$17,000 in its treasury which will be used in making up the difference of the original amount. The amount of \$20,000 upon which interest will be paid will be so small that it will not be felt and no doubt a sinking fund can be provided which will meet the situation promptly.

It is proposed to raise a number of small buildings that have been used for the grades in order to provide ample playground space for the pupils.

The special election will be called immediately by the school trustees, as it is desired to get the work under way without any delay whatsoever. With the additional nine rooms it is believed that the situation will be met for all future time and that there will be ample accommodation to insure the educational life of Tonopah being kept up to the highest possible standard.

The building will be what is known as a high-riser structure and one story in height.

CHINESE ADOPTING AMERICAN HABITS

(By Associated Press) PEKING, May 1.—(By Mail)—China's picturesque capital is gradually adopting western customs. The ancient salutation of bowing has been almost entirely replaced by handshaking and by the lifting of hats. Walking sticks in the hands of Chinese patriarchs, portfolios under the arms of brisk young officials and European clothes are the evidences in the streets which prompt observers to predict that Peking will soon lose its pre-Manchu appearance. Even the boys who pull rickshaws have found it profitable to learn English and French sufficiently to aid their foreign patrons, while English shop signs are becoming conspicuous in remote parts of the city. Shakespeare, after centuries of patience, also has on recognition, for while the next of his plays are seldom read, the stories of his plots are regularly told in the class rooms of the high schools.
